

STEVEN JUNE VILLARINA

Aspiring Software and Cybersecurity Engineer

Waterdown, ON | 289-834-4376 | steven-june.villarina@mohawkcollege.ca

OBJECTIVE

Software Development student eager to secure a co-op work opportunity. My goal is to improve on my technical skills as well as refine my soft skills and apply my 1.5 years of student experience in software development, with the focus in improving my database skills.

SUMMARY OF SKILLS

- **Detail Oriented:** I have consistently improved my detail-oriented skills throughout my work experiences that involved accurate and precise logging of data, information, and detailed reports, which has allowed me to stay result driven and achieve an **88%** GPA in System Analysis & Design.
- **Adaptability:** Having experienced multiple types of jobs that requires different sets of soft and technical skills and different work, has helped me develop my learning and adaptation skills.
- **Great Team Player:** Due to my experience in Dreamscreens Canada Inc., which required my team to meet new people and clients when visiting job sites and client homes, as well as a fast-paced environment in customer service and item production has helped improve my collaborative skills with people which resulted to me being hired after my 120 hours of Co-op work.
- **Good Listener:** Eager to listen to learn and take constructive feedback on areas that will benefit from improvement and increase the quality of work.
- **Effective Communication:** Adaptable communicator with experience in various styles for both effective team and customer service interactions, which allowed me to achieve a GPA of **86%** in Computer Training & Technical Writing.
